**CAPITAL PUBLISHING CO., STATE PRINTER,  
TALLAHASSEE, FLA.,**

1907

POPULATION OF FLORIDA

# APPENDIX

---

EXTRACTS FROM THE  
THIRD CENSUS OF FLORIDA  
TAKEN IN 1905

# POPULATION OF FLORIDA

*Taken in 1905.*

Florida was organized as a territory March 30th, 1822, and admitted into the Union as a State March 3rd, 1845.

Table No. 1 gives the population of Florida at each census from 1830 to 1900, as taken by the U. S., and the census for the intervening periods between 1885 and 1905, inclusive, as taken by the State, together with the increase in number and percentage of increase. The population of the State in 1905 was 614,845, as against a population of 528,542, as shown by the census of the United States for 1900, showing an increase in five years of 86,845, or 16.4 per cent.

Table No. 2 shows the population of the State by counties at each census from 1830 to 1900 by the United States and the periods between 1885 and 1905, inclusive, by the State; this table, with its foot notes, is so arranged because of its historical value.

Table No. 3 shows the area in square miles of the land surface of the State and the population by counties for 1905 and 1900, compared. The average number of persons per square mile is 11.3, as compared with 9.7 in 1900.

Table No. 4 shows the increase in number and per cent.; nine counties show a small decrease in population; this decrease with one or two exceptions is confined to the agricultural section of the State, and represents almost entirely a shifting of the negro population from the farms to the turpentine camps and mills, and to the truck and fruit growing sections of the State, where better wages are paid for labor than can be afforded by the general farmers.

Table No. 8 shows the population of the State by race and sex for specified ages.

Table No. 9 shows males of voting age, classified by race, for 1905, and total for both races for 1900.

Table No. 12 shows population six years of age and under twenty-one, by race and sex, for 1905.

Table No. 13 shows population under six years of age, by race and sex, 1905.

Table No. 14 shows population, male and female, by

Table No. 15 shows number of native and foreign-born population, race, 1905.

race, 1905.

Table No. 19 shows the number of persons 100 years old.

## MORTALITY.

Table No. 20 shows whole number deaths and death rate per thousand, by counties.

## INCORPORATED CITIES AND TOWNS.

Table No. 24 shows the population of the incorporated cities and towns in alphabetical order, 1905.

TABLE NO. 1—POPULATION OF FLORIDA, 1905 TO 1830.

CENSUS YEARS.	Population	Increase.	
		Number.	PerCent.
1905 . . . . .	614,845	86,303	16.4
1900 . . . . .	528,542	137,120	35.0
1895 . . . . .	464,399	73,217	15.76
1890 . . . . .	391,422	121,929	45.2
